About

I am a 4th-year Bachelor of Science in Computer Science student at Biliran Province State University, on the path to becoming a Data Analyst with a growing focus on networking.

I'm currently a scholar in Google's Data Analytics program on Coursera, and I've completed Cisco Networking Academy's Networking Basics. I've also built web systems that solve real local problems, including MushGuard, an AI-powered mushroom identifier for Biliranons, and BiPSU SRMS, the scholarship records and eligibility recommender I designed as the system architect for our thesis.

I am actively seeking an OJT / internship, preferably in data analytics or networking, where I can apply what I've learned and grow through hands-on industry experience.

Tech Stack

Languages

Python Java HTML CSS

Frameworks & Tools

Django GitHub VS Code

Data Analytics (Learning)

Data Cleaning Spreadsheets SQL Data Visualization

Networking

Network Fundamentals Ethernet IPv4 & IPv6

Routing Basics Troubleshooting Wireless Setup

Experience

- **BS Computer Science – 4th Year**
  Present
  Biliran Province State University
- **OJT / Internship – Actively Seeking**
  Open
  Preferably in Data Analytics or Networking
- **Thesis System Architect**
  Thesis
  Scholarship Record Management with Eligibility Recommender (BiPSU SRMS)
- **Data Analytics Career Fundamentals**
  Ongoing
  Google Data Analytics – Coursera Scholarship Program
- **Networking Basics**
  2026
  Cisco Networking Academy online module
- **Hello World!**
  Start
  Started learning programming

Goals

Start my career as a Data Analyst, turning raw information into clear, useful decisions.

Strengthen my networking skills and grow through hands-on OJT and continuous learning.

Recent Projects

BiPSU SRMS · Thesis · Django
Scholarship record archiving and eligibility recommender for BiPSU's SDISS office.

MushGuard · Django · Python
Scan a mushroom to identify the species, whether it is edible, how long it stays safe to eat, and map unknown mushrooms. Built for Biliranons.

Portfolio Website · HTML · CSS · JS
Personal portfolio with an editable CMS and a chat assistant.

Certifications & Awards

Networking Basics · May 2026
Cisco Networking Academy

Introduction to AI Literacy and Responsible Use · Sep 2026
CHED ACHIEVE · Mapúa University

Foundations: Data, Data
Online course by google through Coursera
